During the first quarter 2020, \$115 million in loan balances were reclassified associated with the four branches held for sale in Colorado.

The Company's net interest income for the first quarter of 2020 was \$167.5 million, an increase of \$31.5 million, or 23.2%, from the same period of 2019 as a result of the 2019 mergers. Included in interest income was the yield accretion recognized on loans acquired of \$11.8 million and \$6.7 million for the first quarters of 2020 and 2019, respectively.

Net interest margin (FTE) was 3.68% for the quarter ended March 31, 2020, while core net interest margin, which excludes the accretion, was 3.42% for the same period. The decrease in the net interest margin during the first quarter of 2020 was due to a timing difference between the Company's ability to manage the rate decrease in its variable rate loan portfolio and its repricing of interest bearing deposits in response to the substantial interest rate cuts by the Federal Open Market Committee of the Federal Reserve in March.

Non-Interest Income

Non-interest income for the first quarter of 2020 was \$82.4 million, an increase of \$47.6 million compared to the same period in the previous year. During the first quarter 2020, the Company sold approximately \$1.0 billion in securities resulting in a gain of \$30.1 million. In addition, the Company recognized a \$5.9 million gain associated with the sale of the branches in south Texas recorded in Other Income, which the Company considers a non-core item.

Excluding these expenses, core non-interest expense was \$124.5 million for the first quarter of 2020, an increase of \$25.0 million compared to the same period in 2019, primarily the result of the 2019 mergers and additional software and technology costs related to the Next Generation Banking ("NGB") initiative.

Foreclosed Assets and Other Real Estate Owned

The increase from year end was primarily due the closure of six branches in conjunction with the February 2020 system conversion of Landmark Bank into Simmons Bank. The composition of these assets is divided into three types:

| (\$ in millions) | 1 st Qtr 2020 | 4 th Qtr 2019 | 3 rd Qtr 2019 | 2 nd Qtr 2019 | 1 st Qtr 2019 |

At March 31, 2020, common stockholders' equity was \$2.8 billion. Book value per share was \$26.11 and tangible book value per share was \$15.22 at March 31, 2020, compared to \$26.30 and \$15.89, respectively, at December 31, 2019. The ratio of stockholders' equity to total assets was 13.7% at March 31, 2020, compared to 14.1% at December 31, 2019 while the tangible common equity to tangible assets was 8.4% at March 31, 2020, compared to 9.0% from the previous year-end.

Effective March 4, 2020, the Company's board of directors approved an amendment to the Company's stock repurchase program originally approved on October 17, 2019 to increase the amount of common stock that may be repurchased under the program from a maximum of \$60 million to \$180 million. During the first quarter of 2020, the Company repurchased approximately 4,900,000 shares of its commons stock at an average price of \$18.94. No shares have been repurchased since March 31, 2020. Market conditions and our capital needs will drive the decisions regarding additional, future stock repurchases.

Current Expected Credit Losses ("CECL")

In 2016, new accounting guidance was issued that introduced a new credit loss methodology, the CECL methodology, which requires earlier recognition of credit losses, while also providing additional transparency about credit risk.

The CECL methodology replaces the current incurred loss methodology with a lifetime "expected credit loss" measurement objective for loans, held-to-maturity debt securities and other receivables measured at amortized cost at the time the financial asset is originated or acquired. This standard requires the consideration of historical loss experience and current conditions adjusted for reasonable and supportable economic forecasts. The Company has elected to utilize a blended macroeconomic scenario using a one-year forecast horizon with a subsequent reversion to historical loss experience. Within the life cycle of a loan or other financial asset, this new guidance will generally result in the earlier recognition of the provision for credit losses and the related allowance for credit losses than previous practice. The CECL guidance was effective for the Company as of January 1, 2020. Upon adoption, the Company recorded an additional allowance for credit losses of approximately \$151 million and an adjustment to the reserve for unfunded commitments of \$24 million with a related \$128 million as an adjustment to retained earnings, net of income taxes. The adjustment was based upon the Company's analysis of current conditions, assumptions and economic forecasts.

COVID-19 Impact

In March 2020, Congress passed the Coronavirus Aid, Relief and Economic Security ("CARES") Act, which is designed to provide comprehensive relief to individuals and businesses following the unprecedented impact of the

COVID-19 pandemic. The CARES Act includes approximately \$2 trillion in assistance and a key component is the Paycheck Protection Program ("PPP"), which provides 100% federally guaranteed loans for small businesses to cover up to eight weeks of payroll costs to retain their workforce and assist with mortgage interest, rent and utilities. Notably, these small business loans may be forgiven if borrowers maintain their payrolls and satisfy certain other conditions during the crisis.

In response to the economic hardships associated with the COVID-19 pandemic, as of April 16th, the Company has obtained approval from the SBA for over 3,100 PPP loans totaling over \$745 million for existing and new customers. The Company is continually monitoring the PPP and making the necessary adjustments to its own operations.

In addition, the Company has completed or is in the process of modifying more than 3,600 loans totaling over \$2.8 billion. The Company is dedicated to supporting its customers and communities throughout this period of uncertainty.

In March and in response to the pandemic, the Company announced temporary closure of 52 branches and has been focusing on the enhanced digital banking experience.

The Company has implemented business continuity plans to help ensure that customers have adequate access to banking services while at the same time working to protect associates through heightened safety procedures. As of March 31, 2020, the Company has approximately \$4.7 billion in liquidity sources available and is well capitalized, which management believes should allow the Company to approach the crisis from a position of strength.

Non-GAAP Financial Measures

This press release contains financial information determined by methods other than in accordance with generally accepted accounting principles (GAAP). The Company's management uses these non-GAAP financial measures in their analysis of the Company's performance. These measures adjust GAAP performance measures to, among other things, include the tax benefit associated with revenue items that are tax-exempt, as well as exclude from income available to common shareholders certain expenses related to significant non-core activities, including merger-related expenses, gain on sale of branches and branch right-sizing expenses. In addition, the Company also presents certain figures based on tangible common stockholders' equity and tangible book value, which exclude goodwill and other intangible assets. The Company's management believes that these non-GAAP financial measures are useful to investors because they present the results of the Company's ongoing operations without the effect of mergers or other items not central to the Company's ongoing business, as well as normalizing for tax effects. Management, therefore, believes presentations of these non-GAAP financial measures provide useful supplemental information that is essential to a proper understanding of the operating results of the Company's core businesses. These non-GAAP disclosures should not be viewed as a substitute for operating results determined in accordance with GAAP, nor are they necessarily comparable to non-GAAP performance measures that may be presented by other companies. Where non-GAAP financial measures are used, the comparable GAAP financial measure, as well as the reconciliation to the comparable GAAP financial measure, can be found in the tables of this release.
